

Information for our disabled passengers

From guide dogs to wheelchairs

Everything which is necessary for disabled people, we transport free of charge. These include for example, orthopaedic aids, hospital wheelchairs and also guide dogs.

Piers and boarding the boats

The landing stages are accessible without steps.

The boats (MS STARNBERG, MS SEESHAUPT, MS BAYERN, EMS BERG) are boarded via a wheelchair-accessible ramp which will be level or slightly sloping depending on how deep the water is. You will have to get over a small threshold 5 cm high (risk of stumbling!). Our crew will be happy to help if required. The MS BERNRIED has another two steps down.

If the waves are higher (because of the wind), you will have to cope with some rocking of the boat while boarding, especially on the smaller boats.

In case of a stronger waves (e.g. when windy), it is likely that the boats may move up and down during the boarding process, especially the smaller boats.
